### Measuring Closet Bypass Doors

When installing a complete set of doors, measure both the width and height across the opening to determine the size doors you will need. Use the smaller of each of your vertical and horizontal measurements. For example, if the left vertical measurement is 80-3/4-in and the right vertical measurement is 80-1/2-in, use 80-1/2-in for the vertical measurement. If you are only replacing the door(s), measure the exact width and height of the door(s). Select the Complete Set or Single Door on the form as needed.

**Customer Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

*Please take care when placing your custom order. Custom orders are final and may not be returned or exchanged. Please allow 3 business days for delivery of items from our Custom Fabrication Shop.*
